

ANDERSON A

anderson883858@gmail.com | +91 8838631758 | linkedin.com/in/anderson87 | github.com/andersona7

PROFESSIONAL SUMMARY

Motivated third-year Computer Science and Engineering student with hands-on experience in full-stack web development using React, Node.js, Django, and Python. Proficient in building responsive, database-driven applications with secure user authentication and efficient CRUD operations. Skilled in version control with Git and GitHub, and experienced in working with both relational and non-relational databases. Seeking a Full Stack Developer Internship to apply and expand technical skills in a collaborative, professional environment.

EDUCATION

B.E. in Computer Science and Engineering

Dr. Mahalingam College of Engineering and Technology, Pollachi
CGPA: 8.85 / 10.0

Expected: May 2028

Higher Secondary Certificate (HSC)

Om Sakthi Higher Secondary School, Kolumam
Score: 78.7%

Completed: March 2024

Secondary School Leaving Certificate (SSLC)

Om Sakthi Higher Secondary School, Kolumam
Score: 89.4%

Completed: May 2022

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript

Frontend Technologies: HTML, CSS, React

Backend Technologies: Node.js, Django

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Android Studio

Core Competencies: Full-Stack Web Development, Database Integration, Version Control, Responsive Web Design, User Authentication, CRUD Operations

PROJECTS

Super Task Maestro — Full-Stack Task Management Web Application January 2026 – February 2026

- Designed and developed a full-stack task management web application with secure user authentication and session management.
- Implemented complete CRUD operations - task creation, editing, completion tracking, and deletion — using a RESTful API architecture.
- Integrated MongoDB as the primary database to enable scalable, schema-flexible data storage for user tasks and profiles.
- Built a responsive and accessible user interface using React.js and CSS3, ensuring a consistent experience across devices.
- Applied clean code practices, component-based architecture, and Git-based version control throughout the development lifecycle

ACHIEVEMENTS

Participant, Algorithm Design Competition — developed and submitted optimized algorithmic solutions.

Talk Feast Certification — recognized for communication and public speaking excellence.

EXTRACURRICULAR ACTIVITIES

Member, Science, Mathematics and Technology Club — engaged in STEM-related activities and collaborative problem-solving initiatives.

Member, Digiflash Association — participated in digital innovation events and technology awareness programs.
